

LILLOOET FIRE DEPARTMENT

“Protecting Homes at Risk” Smoke Alarm Program

The Lillooet Fire Department, through a generous donation from **Winners Edge Sports** and preferred pricing from **Kidde Canada**, is excited to announce the start of our “Protecting Homes at Risk” smoke alarm program.

Our goal is to inspect or install smoke alarm devices in homes throughout our community. We will be targeting those homes with residents that are at a higher risk of injury or death resulting from fire incidents. These groups include: seniors, families or single parents with young children, those on fixed incomes and individuals with disabilities.

We have an application form on our website www.lillooetfiredept.ca and will be providing them to service clubs and organizations throughout the community. If you or someone you know is in need of this service please fill out an application and forward it to us. We will take care of the rest. We will be scheduling the visits based on greatest need and the availability of detectors.

Together we can save lives.
